Secretary of the country of the coun

still believe that the grand old organiza-

The Republicaus have made exceptionable and exhaustive efforts to carry the State on Thesday. They have made a bewildering expenditure of money and superhuman efforts, and if after all there should be a diminution of the usual malority, averaging over 30,000 for thirty years, it would demonstrate the election of Cleveland, for if there is disaffection in a State so true and reliable, there would be enough in all the doubtful and closely centested States to give them to Cleveland. The Republican candidates in Ohio to be voted for on Tuesday, it should be remembered, are stronger than Blaine. The revolt among Republicans is not against the party but its candidates for the Presidency, and if unobjectionable candidates fail to secure an election on Tuesday by the usual Republican majority on account of the antipathy to Blaine, there would be no have of carrying the State for Rlaine.

Minimals of the court is a change of the court of the cou

he was the idol of the Greenback party, and has long been the champion of labor the State. He was nominated by the diately indorsed by the progressive element. While he will poll the full Democratic strength in the agricultural districts, he will draw largely from the Greenback ranks and slightly from the

Republicans, especially in the mills and factories of Wheeling and the mines and quarries of the Kanawha Valley. Judge Maxwell, the Fusion candidate, was nominated by the Greenbackers and forced upon the Republicans over the But Henry Ward Beecher Makes a Final protest of the Wheeling Intelligencer and the leading Republicans of the State. His record will more than offset the Democratic disaffection, as he was one of the Council of Three which decided the

constitutionality of the test oath that disenfranchised one-third of the voters of the State. Every Confederate voter in the lower end of the State curses the

the memory of this council, and it is sure to injure Maxwell in the canvass. Bets

Answer that Utterly Squelches

DETROIT, October 7.—The following open letter from Gen. R. A. Alger, of this city, to Henry Ward Beecher, is made public To the Rev. Henry Ward Beecher, Brooklyn, N.Y.:

To the Rev. Henry Ward Beecher, Brooklyn.

N.Y.:

Dear Siz.—The newspapers of to-day publish your letter of yesterday's date, directed to me concerning the Joy-Blaine Little Rock bonds affair, and possibly in due course of mail I may receive the original letter from you. However, I hasten to reply through the same medium which brought your letter to my notice. I beg to inform you that where Mr. Joy is known he is not considered to be the guileless individual, who can be misled by a cablegram from any person, nor is he a man to allow the character of another to be unjustly tarnished when it is in his power to do justice. My cable to Mr. Joy was intended to call his attention to the Little Eock bonds affair, a matter which he doubtless understands thoroughly, and I believe his reply, clean cut as it is, was intended to refute the whole scandal. I had a conversation with Mr. Joy some years ago concerning this matter and before his nominating speech of Mr. Blaine in 1880, and although I cannot give you the full details of that conversation, the clear impression left upon my mind was that he at the time the proposition was made to thim by some third parties to take certain of three to one on Democratic success are common, and even bets are made only on the extent of the Democratic ma-

wrong you have done him and the Republican party, as you have been active in trying to ruin both. Mr. Joy is not the man to have accepted the great trust he did in 1880, when he presented the name of Mr. Blaine to the Chicago Convention for the nomination as President, had he believed him guilty of any unfair dealing or of prostituting his high office for gain.

R. A. ALGER.

HOLLY SPRINGS, MISS.

The Pottery Manufacturers and a Very Reautiful Legend of the Chicks-

HOLLY SPRINGS, October 10 .- A fire oc

sive manufacture of pottery ware in Holly Springs. There are two large factories here, one belonging to P. G. Smith & Bro., and the other to Messrs. Watson & Leach. 'The latter is the more extensive and complete; but both make excellent ware, not to be surpassed anywhere. It is made into every variety shape and size, plain and ornamental, and in quantities to supply a very great demand. The hills in and around Holly Springs abound in potter's clay of superior quality, but the best is obtained from a hillside near the head of a gulch or deep hollow about two miles west of the town, at a spot known to early settlers as the "deer lick." Connected with this is more than one romance, or mystic legend, which was told to the early settlers by the Indians. I get my information from an old gentleman who first came in 1833 or 1834 to Marshall county, then only a wilderness in the Chickssaw country.

then only a wilderness in the Chickasaw country.

Something over 100 years ago there came among the Chickasaws a young white man of the Anglo-Saxon race. He was tall, stroight, with fair complexion, brown hair and black eyes, and a countenance at once expressive of intelligence, generosity and courage. These, with a form of faultless symmetry, and a magnificent physique, made up a tout ensemble of such manly beauty that he at once won the admiration of the savages. He sought and obtained their protection and friendship. He soon excelled in all their manly sports, and became renowned in war and in peace.

by the concept of the great trust he of the concept of the c

was buried in a cave under the Bocky mountain. And ever since, as the legend tells us, on still moonlight nights (es pecially in October), the lovers are seen to

where his wild yell is heard, and the lightning's flash reveals his tail and ghostly form.

The New Parliament Building Injures by an Explosion of Dynamite.

cret process whereby he was enabled to draw off the effete and turbid humors of the eyes of old people and replace them with fresh and youthful fluids—a piece of charlatanism paralleled at the present time by the pretended power to restore the sharpness of sight in elderly people by changing the form of the eyebail through the use of mechanical appliances. In the eighteenth century the operation for artificial papil was first performed, giving sight to a boy blind from birth, but the crowning achievement of ophthalmology during that period was the introduction by Daviel of the operation by extraction for the cure of blindness due to cataract. It was then that the science of ophthalmology first emerged from obscurity and began to receive the attention of educated physicians. In 1773 Barthe founded the Vienna school, so celebrated at the present day, and in 1804 the London Eye Infirmary was organized. The founding of these two institutions gave a very considerable impetus to the study of disorders of the eye, but it was not until 1851 that very marked progress was made. At that time Helmholtz, a German physicist, by a succession of brilliant inductions has adventured the search of the operation of the eye, but it was not until 1851 that very marked progress was made. At that time Helmholtz, a German physicist, by a succession of brilliant inductions has adventured to the search of the operation of the eye, but it was not until 1851 that very marked progress was made. At that time Helmholtz, a German physicist, by a succession of the eye, but it was not until 1851 that very marked progress was made. QUERIC, October 11.—About 1 o'clock this afternoon an explosion occurred at the new Parliament building, destroying a considerable portion of the masonry and windows of the new building, which is just being roofed in. The explosion was at first supposed to have been the boiler of the engine used for hoisting material, but this proved not to be the case, neither can it be attributed to gas. The general impression appears to be that the explosion was caused by dynamite, but as none of this ingredient is used on the works, the mystery is how it came there. An in-

this proved not to be the case, neither can it be attributed to gas. The general impression appears to be that the explosion was caused by dynamite, but as none of this ingredient is used on the works, the mystery is how it came there. An investigation is now being held. The workmen all being away at dinner, nobody but one man is injured, and he escaped with a slight cut from a piece of stone. The shock was very severe all over the city. The windows of houses in the vicinity of the explosion were badly shattered.

The Governor-General at Hallfax.

Hallfax, October 11.—Gov.-Gen. and Marchioness Lansdowne made their first visit to Hallfax to-day. They were received at the station by Gen. Lord Russell, Vice-Admiral Sir J. E. Commerel, the heads of departments, a orilliant staff of officers and many citizens. A guard of honor from the Royal Irish Rifles were present, and a salute was fired from the citadel. On the arrival of the train the party was escorted by mounted officers and driven to the Parliament building.

Narles, October 11.—Nineteen fresh cases of cholera and forty-two deaths are

CAIRO, October 11.—The Mudir, of Dongola's agent at Ambukol, and the Governor of Merawe confirm the report of the murder of Col. Stewart by Arabs. Gen. Wolseley has ordered the Mudir to proceed to Merawe with a strong force to rescue the prisoners said to be in the hands of the Arabs. The steamer Nasifkheir, forming part of the Nile expedition, has arrived at Dongola. No British advance in force for the relief of Khartoum will be made until November.

WADY HALFA, October 11.—The messengers sent out by Col. Ketchener have returned. They confirm the report of Stewart's murder, and say that the only survivors are four black slaves. All Europeans, including M. Nicolai, the Greek consul, were killed.

Caine, October 11 .- A messenger from among the survivors.

The Cholera Rapidly Disappearing-No More Sulletius to be issued.

British Interests to South Africa.

FOREIGN FLASHES. Iquique, via Galveston, October 11.— Seven German teachers have arrived to take positions in the government schools. Shanghai, October 11—The report that Mr. Bagnall, an English colporteur, had been killed by the natives of Shang Tung is unfounded. COPENHAGEN, October 11 .- The ruins of

Christiansborg palace are still smoulder-ing, and the sailors and dock hands have offered their assistance to extinguish it. OTTAWA, October 11 .- The exports of cattle since the opening of navigation to and including September 4th amounted to 43,651 head. The exports of sheep during the same time were 42,000.

SARDIS, MISS.

The Political Affairs of One of the Most Flourishing Districts of the State

Certain to be Committed to the Keep ing and Care of Judge J. B. Morgan. CORRESPONDENCE OF THE APPEAL.

visors, whose course in such event is prescribed by law.

A special meeting of the honorable Board of Supervisors has been called to meet at Batesville next Thursday.

The Rev. J. S. Berry, pastor of the Baptist church at this place, is conducting a protracted meeting at Batesville this week.

The colored Baptists of Sardis are holding an interesting protracted meeting.

The match game of baseball on Friday, October 3d, between the Memphis and Sardis clubs, resulted in favor of the former. The Sardis boys anticipated their defeat and were not surprised at the result. A handsome bouquet of rare and choi e flowers was presented to each club, and peace and quiet reigned supreme throughout the game.

Cotton is coming in gradually, but the

yet. Farmers are busily engaged in gathering their crops.

Drs. John and Edwin Wright attended the meeting of the Board of Medical Censors at Holly Springs one day this week.

A. E. Tucker and daughter, Miss Annie, are attending the St. Louis Fair.

Sardis is one of the most quiet tows on the Mississippi and Tennessee railroad. So much for prohibition. It is very seldom, indeed, that you can see a drunken man on the streets; but before this law was enforced you could at almost any time see men staggering around town and using see men staggering around town and using profane language at the top of their voices. There is, of course, a good deal of whisky drank here yet, but there is not one-third the amount drank now as was before the rohibition act took effect.

The great evangelist, the Rev. Sam P. Sardis in a few days to conduct a pro-tracted meeting. He will have immense audiences during his stay among us.

Judge G. W. Ballentine has returned

The Republicans have a public speaking here to-day (Saturday). They will no doubt have a small turnout.

W. I. Meek has returned from a business visit to Little Rock.

The Hon John C. Kyle attended Circuit Court at Senatobia Tuesday.

The Belmont levee is being repaired.
Circuit Court will convene in Sardis Monday, the 20th instant, the Hon. A. T. Roane, judge; Ira D. Oglesby, district attorney.

and plentiful. Williams & Bros. have opened a stock of

of the tariff and a reform of the present system of government. Capt. Hull endeavored to show that the judge was wrong, but all admit that he made a perfect failure, and that the judge used him up generally. Mr. Hull was somewhat inclined to be flowery in his address, while Judge Morgan dealt mainly in plain and practical facts. It is almost an assured certainty that Judge Mo gan will carry the Second Congressional District by an overwheiming majority, but this fact should enco rage the Democrats to make every honorable effort to secure the largest majority for the Democratic ticket ever recorded in the eventful history of this, the Second District of Mississippi. Second District of Mississippi.

J. C. Outten and wife have just returned

from a pleasant sojourn in Virginia.
On last Wednesday evening, at Courtland, A. Kaufman and Miss Sophia Greenewald were united in the holy bonds of matrimony. A grand hop was given the bridal patty by the young folks of that town, and everything went "as morry as town, and everything went "as merry as a marriage bell."

W. H. Henderson, now of Aberdeen, W. H. Henderson, now of Aberdeen, Miss, but formerly of Sardis, is back on a visit to friends and relatives.

David McCracken, merchant traveler for Stix, Krouse & Co., Cincinnati, has been mingling among his many friends in Sardis this week.

J. C. Hendricks, representing J. Baxter & Co., tobacconists, was doing Sardis the past week.

past week.
